Product Datasheet

1/2" Impact Wrench - Twin Hammer

Heavy duty air impact wrench designed for high performance fastening and loosening tasks in maintenance and tyre changing applications. Delivers strong, reliable torque with one hand operation and durable construction for demanding workshop use.

Features and Benefits:

- Twin hammer mechanism delivers high torque for efficient fastening and removal
- Composite housing reduces weight while maintaining durability
- One-hand forward/reverse control improves ease of use
- Variable speed trigger provides better control during operation

Specification:

Order Code	KBE-270-2007H	**Air Inlet Size**	1/4"
Drive size	1/2"	**Air Consumption**	5.7CFM
Air Pressure	90psi	**Torque Range**	68 to 786Nm
Max Torque	1112Nm	**No Load Speed**	8000rpm
Compatible Hose Inner Diameter	13mm	**Overall Length**	187mm
Power Source	Air	**Weight**	1.91Kg

Standards:

- EN ISO 12100
- EN ISO 11148-6
- EN ISO 28927-2
- EN ISO 15744
